

Would you and your family use a track for cycling / running etc?

Comments / positive

1. Yes for running rather than cycling
2. All the family would use this facility for cycling and running
3. The multi purpose track for running and cycling would have the widest and most popular appeal. We use an exercise bike at home because we do not feel safe from traffic when using our road bikes on local narrow twisty lanes where the occasional vehicle travels too fast.
4. Definitely for the children's bikes
5. Wish every success with Winchfield plans
6. Yes this would be used by all the family we currently go to Mumbles to ride our bikes in a safe environment.
7. Definitely. The lanes are so unsafe for children to ride their bikes in the village. We have to drive 30mins to use cycle tracks. Also for older children and adults to run safely and with fellow villagers would be great.
8. Would be very useful as the lanes are quite dangerous for children to cycle along
9. Good idea for pushchairs / cycles etc in safety
10. We are very enthusiastic – would be an asset to the village
11. Would definitely use – a smooth surface track for walking and letting the children cycle / scooter would be ideal.
12. Only walking.
13. Yes, would use a running track.

(5A)

14. Yes, definitely.
15. Definitely use a cycling track for children this is a great idea.
16. Yes, but the idea is too costly
17. Definitely- A smooth surface track for walking, taking the children cycling / on scooters would be ideal.
18. Yes but the idea is too costly

#### Negative

1. Most people would not like to be observed when exercising
2. A concern that this would be an attraction for young children
3. I like the open road
